

EM-300-4C (EXTERNAL MIX) TORCHES & NOZZLES HIGH VOLUME, AIR COOLED TORCH, STRAIGHT & BEVEL CUTTING

The **EM (External Mix)** torches and tips are of a completely new design to increase productivity. The **External Mix** type tip assures safety, high quality cutting, long life, ease of operation and economy. For use with propylene, cutting materials up to 24 inches thick

OUTSTANDING FEATURES

- **Safe – No Flash Back**
External mixing eliminates any possibility of flash-back
- **Cool Running – No Overheating**
External mixing is engineered to run cool when cutting.
- **Extra Stand-Off Distance**
Conventional stand-off is less than 2" With EM (External Mix). 5" to 6" is common.
- **High Quality Cutting Surface**
Minimal slag – straight cut – square top.
- **Highly Energy Efficient**
Oxygen shielding of the fuel gas reduces consumption
- **Available With Attachable Nozzle Protection**
Protective shroud for cooler, enhanced operation
