

GAS INNOVATIONS

Hydrocarbon Solutions start here.....

Products:

Specializing in high purity hydrocarbons and specialty gases.

Packaging:

From smallest cylinders to the largest tanks we have the containers to meet your requirements. Tube trailers, ISO containers, Deck tanks and storage tanks 250 to 11,900 gallon ASME tanks

Services – Outsourcing:

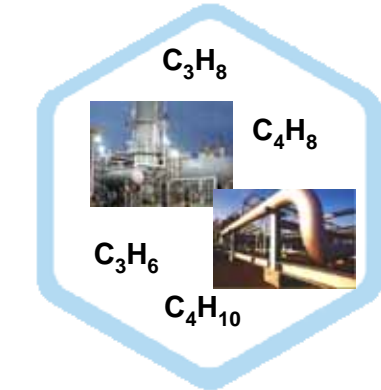

- Hydrocarbon product sourcing
- Equipment Sourcing
- LP Gas Sourcing
- Environmental Remediation
- Cylinder Reclamation
- Tolling, packaging, purification

GAS INNOVATIONS

Specialty Gases

Simplifying Your Gas & Liquid Hydrocarbon Supply Chain

GAS INNOVATIONS

Specialty Gases

Gas Innovations is a leading independent wholesale supplier of propylene, hydrocarbons, non-traditional specialty gases, equipment, consumables and services. By offering innovative and different solutions, Gas Innovations delivers value. We simplify your supply chain by streamlining producer procurement, reducing container expense and eliminating supply bottlenecks. Gas Innovations also offers a wide range of professional services, from cylinder recertification to strategic marketing and business process consulting.

NON TRADITIONAL SPECIALTY GASES

1, 3 Butadiene
Butane
Butene-1
Carbon Monoxide
Ethane
Ethylene
Heptane (s)
Hexane
Isobutane
Isobutylene
Isopentane
Isoprene
Liquefied Natural Gas
Compressed Natural Gas
Methane (LNG) (CNG)
Methanol

Cis-2-Butene
Trans-2-Butene
Pentane
Pentene-1
Propane
Propylene
Refrigerants (high purity)
Sulfur Hexafluoride
Ammonia
Ethyl Chloride
Methyl Chloride

Custom Packaging and supply of chemicals, liquids and gases, including refrigerants, alcohols (butyl, ethyl, isopropyl, methyl) on request

Bulk / Inventory

High purity Propane, Propylene, Butane, Isobutane, Butene 1, Isobutylene and other gases from industrial to instrument grade.

Customized ASME Tanks

- Vertical - 1100, 1900, 3900 gallon
- 12,000 gallon with saddles
29 feet in length.
