

GAS INNOVATIONS

STAINLESS INSERT ADAPTER SYSTEM

PROPYLENE TIPS

**SAVE 60% IN REPLACEMENT TIPS
AND TRIPLE YOUR TIP LIFE...**

*Increase tip life....
Increase productivity...
Maintain cutting accuracy....*

KEEP THIS

**REPLACE THIS
WHEN IT
WEARS OUT**

**The Universal Tip system with
STAINLESS INSERT**

*An assembled Multi-Use adapter
and tip with Stainless Steel Insert.*

*A simple effective replacement
system that can save you as much
as 60% in replacement Tip costs.*

HIGH SPEED PROPYLENE CUTTING WITH STAINLESS INSERT

Metal Thickness Inches/mm	Tip No	Cutting Oxygen Orifice	Cutting Oxygen PSI / Bar	Fuel Gas PSI / Bar	Cut Speed Inches-min. / mm-min.	Kerf Width Inches/mm

GAS INNOVATIONS

STAINLESS INSERT ADAPTER SYSTEM

The Multi-Use Universal Machine Torch Adapter System

The system that will save you time and money....

The patented Multi-Use System has many features and benefits

FEATURES

1. Every Multi-Use Tip fits every Multi-Use Adapter.
2. You need only one adapter for each torch.
3. Tips are available in six standard series and each series has a complete range of sizes.
4. Each tip is quick and easy to change.
5. Tips are easy to clean and maintain cutting accuracy with the Stainless Insert.
4. All tips are made to exacting standards by CNC machines and have the highest quality materials.
4. Tips used with Propylene give the highest cutting speeds.

BENEFITS

1. Low initial cost.
2. Virtually eliminates torch re-seating.
3. Inventory can be substantially reduced.
4. Increased production output with increased cutting speed using Propylene as a fuel gas.
5. Quality of cuts are superior and Kerf widths are maintained longer.
6. Reduced replacement costs.

And the most important benefit is... you can save up to 60% in replacement costs when you use the Multi-Use Adapter System.
