1. PRODUCT AND COMPANY IDENTIFICATION

Product Code: 00014

Product Name: Ethylene Compressed

Company Name: Gas Innovations Phone Number: 18005 E. Hwy 225 +1 (281)471-2200

La Porte, TX 77571

Web site address: www.gasinnovations.com

Emergency Contact: 3E (within United States) +1 (866)303-2640 **Information:** Infotrac (outside of United States) +1 (352)323-3500

2. HAZARDS IDENTIFICATION

Flammable Gases, Category 1

Gas Under Pressure, Compressed gas

Specific Target Organ Toxicity (single exposure), Category 3

GHS Signal Word: Danger

GHS Hazard Phrases: H220 - Extremely flammable gas.

H280 - Containers gas under pressure; may explode if heated.

H335 - May cause respiratory irritation.

GHS Precaution Phrases: P210 - Keep away from heat/sparks/open flames/hot surfaces. - No smoking.

P261 - Avoid breathing gas/vapors.

P271 - Use only outdoors or in a well-ventilated area.

GHS Response Phrases: P377 - Leaking gas fire: Do not extinguish, unless leak can be stopped safely.

P381 - Eliminate all ignition sources if safe to do so.

P304+340 - IF INHALED: Remove victim to fresh air and keep at rest in a position

comfortable for breathing.

P312 - Call a POISON CENTER or doctor/physician if you feel unwell.

GHS Storage and Disposal

Phrases:

P410+403 - Protect from sunlight and store in well-ventilated place. P403+233 - Store

container tightly closed in well-ventilated place.

P501 - Dispose of contents/containers in accordance with

local/regional/national/international regulations.

Hazard Rating System:

Potential Health Effects

(Acute and Chronic):

Potential Health Effects.

Inhalation: May be harmful if inhaled. May cause respiratory tract irritation. Vapors may cause

drowsiness and dizziness. This material can act as a simple asphyxiant by displacement

of air.

Skin Contact: May be harmful if absorbed through the skin. May cause skin irritation.

Eye Contact: May cause eye irritation. **Ingestion:** May be harmful if swallowed.

Ethylene Compressed

3. COMPOSITION/INFORMATION ON INGREDIENTS

CAS # Hazardous Components (Chemical Name) Concentration

74-85-1 Ethylene 100 %

4. FIRST AID MEASURES

Emergency and First Aid

Procedures:

In Case of Inhalation: If breathed in, move person into fresh air. If not breathing give artificial respiration.

Consult a physician.

In Case of Skin Contact: Wash off with soap and plenty of water. Consult a physician.

In Case of Eye Contact: Immediately flush eyes with plenty of water for at I east 15 minutes. Hold eyelids apart

and flush eyes with plenty of water. After initial flushings, remove any contact lenses and continue flushing for at least 15 minutes. Have eyes examined and tested by

medical personnel.

In Case of Ingestion: Not expected to be a primary route of exposure. Do NOT induce vomiting. Never give

anything by mouth to an unconscious person. Rinse mouth with water. Consult a

physician.

Signs and Symptoms Of

Exposure:

Nausea. Dizziness. Headache. Narcosis.

Note to Physician: Consult a physician. Show this safety data sheet to the doctor in attendance.

5. FIRE FIGHTING MEASURES

Flash Pt: -136 C (-213 F) Method Used: Unknown Explosive Limits: LEL: 2.7 %(V) UEL: 36 %(V)

Autoignition Pt: 450 C (842 F)

Suitable Extinguishing Media: Stop the flow of gas. IF the flow cannot be stopped, let the fire burn out while cooling the

cylinder and the surrounding areas using a water spray. Use water spray, dry chemical,

carbon dioxide, or alcohol-resistant foam.

Fire Fighting Instructions: Personnel may have to wear approach-type protective suits and positive pressure

self-contained breathing apparatus. Firefighters' turnout gear may be inadequate. Cylinders exposed to fire may rupture with violent force. Extinguishing surrounding fire and keep cylinders cool by applying water from a maximum possible distance with a water spray. Flammable gases may spread from a spill after the fire is extinguished and

be subject to re-ignition.

Flammable Properties and

Hazards:

High temperatures and fire conditions can result in the formation of carbon monoxide

and carbon dioxide.

6. ACCIDENTAL RELEASE MEASURES

Protective Precautions, Protective Equipment and Emergency Procedures: Use proper personal protective equipment as indicated in Section 8.

Environmental Precautions: Prevent further leakage or spillage if safe to do so. Do not let product enter drains.

Steps To Be Taken In Case Material Is Released Or

• · · ·

Spilled:

Remove all sources of ignition. Evacuate personnel to safe areas. Ensure adequate ventilation. Avoid breathing vapors, mist or gas. Beware of vapours accumulating to form

explosive concentrations. Vapours can accumulate in low areas.

Ethylene Compressed

7. HANDLING AND STORAGE

Precautions To Be Taken in Handling:

Avoid inhalation of vapor or mist. Keep away from heat, sparks and flame. Keep away from sources of ignition - No smoking. Use spark-proof tools and explosion proof equipment. Use in a closed system. Secure the cylinder to prevent it from falling or being knocked over. Leak check the lines and equipment. Have an emergency plan covering steps to be taken in the event of an accidental release.

Wear leather safety gloves and safety shoes when handling cylinders. Protect cylinders from physical damage; do not drag, roll, slide or drop. While moving cylinder, always keep in place removable valve cover. Never attempt to lift a cylinder by its cap; the cap is intended solely to protect the valve. When moving cylinders, even for short distances, use a cart (trolley, hand truck, etc.) designed to transport cylinders. Never insert an object (e.g., wrench, screwdriver, pry bar) into cap openings; doing so may damage the valve and cause a leak. Use an adjustable strap wrench to remove over-tight or rusted caps. Slowly open the valve. If the valve is hard to open, discontinue use and contact your supplier. Close the container valve after each use; keep closed even when empty. Never apply flame or localized heat directly to any part of the container. High temperatures may damage the container and could cause the pressure relief device to fail prematurely, venting the container contents.

Precautions To Be Taken in Storing:

Cylinders should be stored and used in dry, well-ventilated areas away from sources of heat or ignition. Store away from oxidizers. Protect containers against damage.

Other Precautions:

When handling product under pressure, use piping and equipment adequately designed to withstand the pressures to be encountered. Never work on a pressurized system. Use a back flow preventive device in the piping. Gases can cause rapid suffocation because of oxygen deficiency; store and use with adequate ventilation. If a leak occurs, close the container valve and blow down the system in a safe and environmentally correct manner in compliance with all international, federal/national, state/provincial, and local laws; then repair the leak. Never place a container where it may become part of an electrical circuit.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

CAS# **Partial Chemical Name OSHA TWA ACGIH TWA Other Limits**

No data. TLV: Simple asphyxiant ppm No data. 74-85-1 Ethylene

Respiratory Equipment (Specify Type):

No special respiratory protection equipment is required with adequate ventilation. Where protection is desired, use multi-purpose combination (US) or type ABEK (EN 14387) respirator cartridges. Use respirators and components tested and approved under

appropriate government standards such as NIOSH (US) or CEN (EU).

Face shield and safety glasses. **Eve Protection:**

Protective Gloves: Wear neoprene gloves during cylinder change out or wherever contact with product is

possible.

Other Protective Clothing:

Engineering Controls

(Ventilation etc.):

Practices:

Work/Hygienic/Maintenance

Use explosion-proof ventilation equipment. Facilities storing or utilizing this material should be equipped with an eyewash facility, and a safety shower is recommended. Handle in accordance with good industrial hygiene and safety practice. Wash hands

Wear metatarsal shoes for cylinder handling, and protective clothing where needed.

before breaks and at the end of workday.
